UNIVERSITY

Live Training Offerings

LEVEL UP SERIES:

ADVANCED DAX

Acquire industrial-strength skills for conquering an unlimited spectrum of analytical, reporting, and modeling needs.

One Day and You Will Be Amongst the DAX Powerful!

THE WORLD'S MOST EFFECTIVE BI TOOLSET IS ALSO:

-  The most cost-effective — you probably already own it!
-  The quickest to learn — it's built on tools you already know.
-  The best BY FAR — it will **revolutionize** your business in short order. We promise!

THE MOST ADVANCED COURSE WE HAVE EVER TAUGHT!

- Co-Taught by Austin Senseman and Kellan Danielson – PowerPivotPro Partners and Principal Consultants.
- They will draw on usage of Advanced DAX applications while consulting with hundreds of international firms.

Who should attend?

- Students are encouraged to take Rob Collie's Foundations course and have hands on experience with the DAX language.
- Intensive users of Excel, particularly those responsible for reporting and analysis.
- Business leaders who need to mine their data for actionable insight – using existing resources and on short deadlines.
- Organizations looking to leverage Microsoft's groundbreaking Power BI offerings.
- Business Intelligence and Database professionals looking to increase their professional agility and dramatically expand their capabilities.

YOUR INSTRUCTORS

What past students have said...

"I cannot imagine work without the things I've learned about Power Pivot in this course."

-- E. Lim

"This curriculum is unique and very valuable. Actually priceless. Big thank you."

-- R. Abay

"I really appreciate your attention to detail and your unassuming approach. Mind blowing stuff! My life will be so much easier now."

-- Guruprasad D.

"The content in this course is super accessible, so retention is high ... Worth Every penny."

-- J. Hoffner

Austin Senseman spent the last five years using Modern Excel in the field to solve analytical challenges for the financial services industry. As a former analyst, Austin is focused on enabling other data professionals to experience the joys of Power Pivot & Power

BI. Austin is a CFA Charterholder, former CPA, Excel Power User, and SQL Server Professional, whose involvement in data/ analytics projects lowers the communication costs between business users and IT professionals and helps organizations get to solutions faster.

Kellan Danielson represents a new breed of Analytics Professional: a passionate hybrid of Business and IT skill sets. He spent the previous seven years in the Apparel and Footwear industry in Portland, OR operating in a number of roles ranging from Business Intelligence to Process Management to Supply Chain Operations. In those roles, Kellan became a data ninja: an expert in Power Pivot, Power Query, and Power BI, and has implemented a number of large scale solutions.
